

VUNTUT GWITCHIN FIRST NATION

NOTES TO THE NON-CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED MARCH 31, 2004

1. Basis of presentation

These financial statements have been prepared on a non-consolidated basis and do not include the accounts of the First Nation's compensation fund or Vuntut Development Corporation, both 100%-owned by the First Nation.

These financial statements have been prepared for First Nation management and member purposes. As the financial statements have not been prepared for general purposes, some users may require further information. Consolidated financial statements for the First Nation have been prepared and the reader is referred to them.

2. Significant accounting policies

These financial statements have been prepared by First Nation management in accordance with standards generally accepted for governments in Canada. In preparing these financial statements, management has made estimates and assumptions that affect the amounts reported. Actual results could differ from those estimates.

Capital assets

Capital assets are stated at cost. The cost of houses built by the First Nation with the assistance of loans guaranteed by CMHC (see Note 4), are included in capital assets. The cost of houses built with funding provided by Indian Affairs is not included in capital assets.

Depreciation

The First Nation does not depreciate its capital assets except as noted. Depreciation on houses which are part of the CMHC Housing program is recorded in an amount equal to the annual reduction of mortgage principal.

Inventory

Inventory is stated at the lower of cost and fair market value.

FOR THE YEAR ENDED MARCH 31, 2004

2. Significant accounting policies (continued)

Revenue recognition

Contributions under the terms of agreements are recognized as revenue at the time applications are approved by the relevant funding agency.

Surplus

All unexpended items of revenue, except as noted above, are treated by the First Nation as surplus, except for certain capital projects where unexpended revenues are deferred until the project is complete.

Financial instruments

The First Nation's financial instruments consist of cash, accounts receivable, temporary and long-term investments, accounts payable, amounts due to related parties and long-term debt. Unless otherwise noted, it is management's opinion that the First Nation is not exposed to significant interest, currency or credit risks arising from these financial instruments.

3. Reserves

Pursuant to its agreement with Canada Housing and Mortgage Corporation, the First Nation is required to segregate funds for replacement and subsidy surplus reserves. The expenditures from these funds are restricted by the terms of the agreement.
